

## Vikram - Managing Director

---

Vikram has prior technology experience with Fortune 500 companies like Sun Microsystems, AMD and has worked for LendingTree as their Decision Engine Architect. He later co-founded Mortgage Data Systems - a finance startup in the US. After a successful stint, he made a move to India and co-founded Axilon Technologies; which was later acquired

by Axis Technical Group. Sighting an opportunity with Digital Marketing in India and an inclination to create a product/platform company; he co-founded Amura. His astute business sense & leadership is the guiding torch for Amura & its talented team.
